

FHNO 2027

CONFERENCE BROCHURE

27th National Conference of the
Foundation for Head & Neck Oncology

Theme: Targeted Therapies,
Personalized Paradigms and Digital Tech
Decoded: Fast Forward to the Future

22ND - 24TH OCTOBER 2027 | KOLKATA, INDIA

WELCOME MESSAGE

Esteemed Colleagues and Friends,

It gives us immense pride and pleasure to welcome you to FHNO 2027, to be held from 22nd to 24th October 2027 in the vibrant and culturally rich city of Kolkata. Organised under the aegis of the Foundation for Head and Neck Oncology (FHNO) and hosted by the West Bengal Head and Neck Society, FHNO 2027 brings together leading clinicians, surgeons, oncologists, researchers, academicians, and young professionals from across India and around the world. Building upon the remarkable legacy of FHNO 2018, this conference is envisioned as a dynamic platform for meaningful scientific exchange, multidisciplinary collaboration, cutting-edge research, and innovation in the field of head and neck oncology. Through an engaging scientific programme, interactive sessions, expert discussions, and opportunities for collaboration, we hope to inspire new ideas and strengthen our collective pursuit of excellence in patient care. Kolkata, fondly known as the "City of Joy," offers a unique blend of intellectual heritage, cultural richness, warmth, and hospitality. We hope that your time in the city will be as memorable outside the conference halls as it is within them.

Your presence will truly make FHNO 2027 special. We look forward to three days of learning, sharing, networking, friendship, and celebrating the remarkable advances being made in head and neck oncology.

On behalf of the Organising Committee of FHNO 2027, we extend our warmest welcome to each one of you. We look forward to welcoming you to Kolkata in October 2027 and to making FHNO 2027 a memorable and enriching experience for all.

With warm regards,

Organising Committee of FHNO 2027

PROGRAMME

PROGRAMME HIGHLIGHTS

Cutting-Edge Scientific Sessions:

A comprehensive scientific programme addressing the latest advances in head and neck oncology, including precision surgery, organ preservation, immunotherapy and AI-driven diagnostics.

Global Faculty & International Collaboration:

Interact with renowned national and international experts and gain diverse perspectives through collaborations with leading global organisations, including IFHNOS and AHNS.

Live Surgical Workshops

Experience real-time learning through live and video-based surgical demonstrations, bringing contemporary surgical techniques and decision-making directly to the conference platform

Masterclasses

Focused, expert-led masterclasses designed to provide deeper insights into complex procedures, evolving techniques and practical approaches in head and neck oncology.

Multidisciplinary Exchange

Engage with specialists across disciplines to discuss complex clinical challenges, emerging evidence and evolving approaches to comprehensive cancer care.

Research & Innovation

Explore emerging developments shaping the future of head and neck oncology and connect with clinicians, researchers and academic leaders driving innovation in the field.

REGISTRATION
